CAREER OBJECTIVE

Motivated developer with hands-on experience in backend development and AI-based applications, focused on building scalable APIs and efficient systems. Seeking to contribute to real-world projects while enhancing technical and problem-solving skills.

EDUCATION

University Institute of Technology (RGPV)

Master of Computer Application (GPA: 8.38)

2023 – 2025

Bhopal

Chameli Devi Institute of Professional Studies (DAVV)

Bachelor of Computer Application (CGPA: 8.00)

2020 – 2023

Indore

Shri Cloth Market Kanya Vidyalaya

Class 12th (CBSE) (CGPA: 6.46)

2020

Indore

Shri Cloth Market Kanya Vidyalaya

Class 10th (CBSE) (CGPA: 6.11)

2018

Indore

EXPERIENCE

Valere

Python Developer Intern

Dec 2025 – Mar 2026

- Worked on backend API development using Python and FastAPI.
- Implemented REST APIs and handled request-response workflows.
- Explored AI-based features including document processing and query handling.
- Worked with structured data handling and API integration.

Ypsilon IT Solutions

Java Developer Intern

Aug 2025 – Jan 2026

Indore, MP

- Worked on backend development using Java and implemented application logic.
- Developed REST APIs and understood microservices architecture.
- Handled debugging, testing, and improved backend performance.
- Gained hands-on experience with Spring Boot fundamentals.

PROJECTS

OptiRAG – Intelligent Document Q&A System | *Python, FastAPI, RAG*

- Developed a document-based question answering system using Retrieval-Augmented Generation (RAG).
- Built REST APIs using FastAPI to process user queries and return contextual responses.
- Implemented document chunking, embeddings, and vector-based retrieval.
- Integrated LLM APIs for generating accurate answers.

KisanLink | *Java, Spring MVC, JDBC, MySQL*

- Developed a web-based application to connect farmers and buyers using Spring MVC architecture.
- Implemented backend logic for user and product management with proper request handling.
- Integrated JDBC for database connectivity and performed CRUD operations.
- Designed structured application flow following MVC pattern.
- Applied input validation and ensured smooth data processing.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, C++
- **Backend Development:** FastAPI, Django (Basics), RESTful APIs, API Design, Request Handling
- **AI & LLM:** Retrieval-Augmented Generation (RAG), LLM API Integration
- **Databases:** MySQL, PostgreSQL, Basic Query Optimization
- **Core Concepts:** Object-Oriented Programming (OOPs), Exception Handling
- **Architecture:** Microservices (Introductory), MVC Architecture
- **Tools:** Git, GitHub, Postman, Maven
- **Others:** JSON Handling, Basic Linux Commands
